InterNACHI Home Inspection Report Checklist
Xpert Home Inspections (256) 813-4237

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

This checklist is based upon the International Standards of Practice for Performing a General Home Inspection, which is located at www.nachi.org/sop.

This checklist may be used to perform a visual inspection of a home and provide the inspector with a written report identifying the defects that were (1) observed and (2) deemed material.

The purpose of clarity, the following terms may be used by the inspector:

A **material defect** is a specific issue with a system or component of a residential property that may have a significant, adverse impact on the value of the property, or that poses an unreasonable risk to people.

A **major defect** is a condition of a system or component that renders it non-working, non-performing, non-functioning or unsafe, and requires a professional contractor to further evaluate and repair, correct or replace.

A **minor defect** is a condition of a system or component that renders it non-working, non-performing, or non-functioning, and may be repaired, corrected or replaced by a professional contractor or the homeowner.

A **cosmetic defect** is a superficial flaw or blemish in the appearance of a system or component that does not interfere with its safety or functionality.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

ROOF

INSPECT:

_____ I inspected the roof-covering materials:

- _____ from the ground level
 - _____ from the eaves
 - _____ from a ladder
 - _____ from the roof surface
 - _____ from a window
 - _____ using binoculars
 - _____ using a camera extension pole
-

_____ The roof-covering materials were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the gutters:

- _____ from the ground level
 - _____ from the eaves
 - _____ from a ladder
 - _____ from the roof surface
-

_____ The gutters were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected from ground level or the eaves the downspouts.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ The downspouts were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the vents, flashing, skylights, chimney, and other roof penetrations:

- _____ from the ground level
 - _____ from the eaves
 - _____ from a ladder
 - _____ from the roof surface
 - _____ from a window
 - _____ using binoculars
 - _____ using a camera extension pole
-
-

_____ The vents, flashing, skylights, chimney, and other roof penetrations were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected from ground level or the eaves the general structure of the roof:

- _____ from readily accessible areas
 - _____ from readily accessible panels
 - _____ from readily accessible doors
 - _____ from readily accessible stairs
-
-

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ The general structure of the roof from the readily accessible panels, doors or stairs was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

The type of roof-covering materials I observed can be described as:

- _____ asphalt shingle
 - _____ wood shingle or shake
 - _____ concrete or clay tile
 - _____ metal
 - _____ slate
 - _____ other
-

REPORT:

_____ I observed indications of an active roof leak. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

EXTERIOR

INSPECT:

_____ I inspected the exterior wall-covering materials, flashing and trim.

_____ The exterior wall-covering materials, flashing and trim were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected all exterior doors.

_____ All exterior doors were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the adjacent walkways and driveways.

_____ The adjacent walkways and driveways were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the stairs, steps, stoops, stairways and ramps.

_____ The stairs, steps, stoops, stairways and ramps were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ not within the scope of the inspection

_____ I inspected the porches, patios, decks, balconies and carports.

_____ The porches, patios, decks, balconies and carports were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the railings, guards and handrails.

_____ The railings, guards and handrails were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the eaves, soffits and fascia.

_____ The eaves, soffits and fascia were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected a representative number of windows.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ A representative number of windows were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the vegetation, surface drainage, retaining walls and grading of the property, where they may adversely affect the structure due to moisture intrusion.

_____ The vegetation, surface drainage, retaining walls and grading of the property, where they may adversely affect the structure due to moisture intrusion, were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

The type of exterior wall-covering materials can be described as:

- _____ vinyl
 - _____ stucco
 - _____ aluminum siding
 - _____ cement-fiber panels or siding
 - _____ exterior insulation finish systems (EIFS)
 - _____ wood panels or siding
 - _____ masonry, brick and stone
 - _____ other
-

REPORT:

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of improper spacing between intermediate balusters, spindles and rails.
Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

BASEMENT, FOUNDATION, CRAWLSPACE & STRUCTURE

INSPECT:

_____ I inspected the foundation.

_____ The foundation was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the basement.

_____ The basement was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the crawlspace.

_____ The crawlspace was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the structural components.

_____ The structural components were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ not within the scope of the inspection

DESCRIBE:

The type of foundation can be described as:

- _____ basement
 - _____ crawlspace
 - _____ slab-on-grade
 - _____ concrete block
 - _____ poured concrete
 - _____ other
-
-

The location of the access to the under-floor space is

REPORT:

_____ I observed indications of wood in contact with or near soil. Correction is needed.

_____ I observed indications of active water penetration. Correction is needed.

_____ I observed indications of possible foundation movement, such as sheetrock cracks, brick cracks, out-of-square door frames, and unlevel floors. Correction is needed.

_____ I observed indications of cutting, notching and boring of framing members that may, in my opinion, present a structural or safety concern. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

HEATING

INSPECT:

_____ I inspected the heating system, using normal operating controls.

_____ The heating system was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

The location of the thermostat for the heating system is

_____.

The energy source of the heating system is:

- _____ natural gas
 - _____ electricity
 - _____ fuel oil
 - _____ propane
 - _____ geothermal
 - _____ solar
 - _____ solid wood
 - _____ pellets
 - _____ coal
 - _____ kerosene
-

The heating method of the heating system is:

- _____ warm-air
- _____ hydronic
- _____ steam
- _____ electric
- _____ other

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

REPORT:

_____ A heating system did not operate. Correction is needed.

_____ A heating system was deemed inaccessible. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

COOLING

INSPECT:

_____ I inspected the cooling system using normal operating controls.

_____ The cooling system was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

The location of the thermostat for the cooling system is

The cooling method can be described as:

- _____ a central air conditioning system
 - _____ a split or ductless air conditioning
 - _____ a packaged air conditioner
 - _____ a evaporative cooling unit
 - _____ a window air conditioner
 - _____ a through-wall unit
 - _____ a portable unit
 - _____ other
-

REPORT:

_____ A cooling system did not operate. Correction is needed.

_____ A cooling system was inaccessible. Correction is needed.

_____ I observed indications of a material defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

PLUMBING

INSPECT:

_____ I inspected the main water supply shut-off valve.

_____ The main water supply shut-off valve was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the main fuel supply shut-off valve.

_____ The main fuel supply shut-off valve was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the water heating equipment, including the energy source, venting connections, temperature/pressure-relief (TPR) valves, Watts 210 valves, and seismic bracing.

_____ The water heating equipment, including the energy source, venting connections, temperature/pressure-relief (TPR) valves, Watts 210 valves, and seismic bracing, were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the interior water supply, including all fixtures and faucets, by running the water.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ The interior water supply, including all fixtures and faucets, were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected all toilets for proper operation by flushing.

_____ The toilets were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected all sinks, tubs and showers for functional drainage.

_____ The sinks, tubs and showers were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the drain, waste and vent system.

_____ The drain, waste and vent system was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I inspected the drainage sump pumps with accessible floats.

_____ The drainage sump pumps with accessible floats were not inspected, because they were:

_____ inaccessible

_____ unsafe

_____ not present

_____ not within the scope of the inspection

DESCRIBE:

_____ Based upon observed indications, the water supply is public.

_____ Based upon observed indications, the water supply is private.

The location of the main water supply shut-off valve is

The location of the main fuel supply shut-off valve is

The location of the observed fuel-storage system is

The static water pressure reading was measured at

The capacity of the water heating equipment was measured at

REPORT:

_____ I observed indications of deficiencies in the water supply by viewing the functional flow in two fixtures operated simultaneously. Correction is needed.

InterNACHI Home Inspection Report Checklist **Xpert Home Inspections (256) 813-4237**

_____ I observed indications of deficiencies in the installation of hot and cold water faucets.
Correction is needed.

_____ I observed indications of mechanical drain stops that were missing or did not operate if
installed in sinks, lavatories and tubs. Correction is needed.

_____ I observed indications of toilets that were damaged, had loose connections to the floor, were
leaking, or had tank components that did not operate. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

ELECTRICAL

INSPECT:

_____ I inspected the service drop.

_____ The service drop was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the overhead service conductors and attachment point.

_____ The overhead service conductors and attachment point were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the service head, gooseneck and drip loops.

_____ The service head, gooseneck and drip loops were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

_____ I inspected the service mast, service conduit and raceway.

_____ The service mast, service conduit and raceway were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ not within the scope of the inspection

_____ I inspected the electric meter and base.

_____ The electric meter and base were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the service-entrance conductors.

_____ The service-entrance conductors were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the main service disconnect.

_____ The main service disconnect was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected panelboards and over-current protection devices (circuit breakers and fuses).

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ The panelboards and over-current protection devices (circuit breakers and fuses) were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the service grounding and bonding.

_____ The service grounding and bonding were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected a representative number of switches, lighting fixtures and receptacles, including receptacles observed and deemed to be arc-fault circuit interrupter (AFCI)-protected using the AFCI test button, where possible.

_____ The representative number of switches, lighting fixtures and receptacles, including receptacles observed and deemed to be arc-fault circuit interrupter (AFCI)-protected using the AFCI test button, where possible, were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected all ground-fault circuit interrupter receptacles and circuit breakers observed and deemed to be GFCIs using a GFCI tester, where possible.

_____ The ground-fault circuit interrupter receptacles and circuit breakers observed and deemed to be GFCIs using a GFCI tester, where possible, were not inspected, because they were:

- _____ inaccessible
- _____ unsafe

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

- not present
 not within the scope of the inspection
-

I inspected smoke and carbon-monoxide detectors.

- The smoke and carbon-monoxide detectors were not inspected, because they were:
- inaccessible
 - unsafe
 - not present
 - not within the scope of the inspection
-

DESCRIBE:

The main service disconnect's amperage rating, if labeled, is _____.

The type of wiring observed can be described as:

- type NM (nonmetallic sheathed)
- type UF (underground feeder)
- type AC (armored cable)
- aluminum branch circuit
- knob and tube

REPORT:

I observed indications of deficiencies in the integrity of the service-entrance conductors' insulation, drip loop, and vertical clearances from grade and roofs. Correction is needed.

I observed indications of unused circuit-breaker panel opening that was not filled. Correction is needed.

I observed indications of the presence of solid conductor aluminum branch-circuit wiring. Correction is needed.

I observed indications of a tested receptacle in which power was not present, polarity was incorrect, the cover was not in place, the GFCI devices were not properly installed or did not operate

InterNACHI Home Inspection Report Checklist **Xpert Home Inspections (256) 813-4237**

properly, indications of arcing or excessive heat, and where the receptacle was not grounded or was not secured to the wall. Correction is needed.

_____ I observed indications of the absence of smoke detectors. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist

Xpert Home Inspections (256) 813-4237

FIREPLACE

INSPECT:

_____ I inspected readily accessible and visible portions of the fireplaces and chimneys.

_____ The readily accessible and visible portions of the fireplaces and chimneys were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the lintels above the fireplace openings.

_____ The lintels above the fireplace openings were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the damper doors by opening and closing them, if readily accessible and manually operable.

_____ The damper doors were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the cleanout doors and frames.

_____ The cleanout doors and frames were not inspected, because they were:

- _____ inaccessible

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

- _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

The type of fireplace can be described as:

- _____ masonry solid fuel-burning
 - _____ factory-built solid fuel-burning
 - _____ decorative gas-burning
 - _____ solid fuel-burning stove
 - _____ solid fuel-burning fireplace insert
-

REPORT:

_____ I observed indications of joint separation, damage or deterioration of the hearth, hearth extension or chambers. Correction is needed.

_____ I observed indications of manually operated dampers that did not open and close. Correction is needed.

_____ I observed indications of the lack of a smoke detector in the same room as the fireplace. Correction is needed.

_____ I observed indications of the lack of a carbon-monoxide detector in the same room as the fireplace. Correction is needed.

_____ I observed indications of cleanouts not made of metal, pre-cast cement, or other non-combustible material. Correction is needed.

_____ I observed indications of a material defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

ATTIC, INSULATION & VENTILATION

INSPECT:

_____ I inspected the insulation in unfinished spaces from:

- _____ readily accessible areas
 - _____ readily accessible panels
 - _____ readily accessible doors
 - _____ readily accessible stairs
-

_____ The insulation in unfinished spaces was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the ventilation of unfinished spaces, including attics, crawlspaces and foundation areas.

_____ The ventilation of unfinished spaces was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected the mechanical exhaust systems in the kitchen, bathrooms and laundry area.

_____ The mechanical exhaust systems in the kitchen, bathrooms and laundry area were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present
- _____ not within the scope of the inspection

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

DESCRIBE:

The type of insulation observed can be described as:

- fiberglass blanket
 - blown-in fiberglass
 - loose-fill fiberglass
 - mineral rock or slag wool
 - blown-in cellulose
 - loose-fill cellulose
 - spray-foamed or foamed-in-place
 - structural insulated panel
 - concrete block insulation
 - foam board or rigid foam
 - insulated concrete forms
 - natural fibers
 - others
-

The approximate average depth of insulation observed at the unfinished attic floor area or roof structure:

The approximate average thickness of vertical insulation observed from the unfinished attic area:

REPORT:

I observed indications of the general absence of insulation or ventilation in unfinished spaces. Correction is needed.

I observed indications of a material defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

_____ I observed indications of a cosmetic defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

DOORS, WINDOWS & INTERIOR

INSPECT:

_____ I inspected a representative number of doors and windows by opening and closing them.

_____ A representative number of doors and windows were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected floors, walls and ceilings.

_____ The floors, walls and ceilings were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected stairs, steps, landings, stairways and ramps.

_____ The stairs, steps, landings, stairways and ramps were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

_____ I inspected railings, guards and handrails.

_____ The railings, guards and handrails were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ not within the scope of the inspection

_____ I inspected garage vehicle doors and the operation of garage vehicle door openers, using normal operating controls.

_____ The garage vehicle doors and the operation of garage vehicle door openers were not inspected, because they were:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-

DESCRIBE:

_____ The garage vehicle door is manually-operated.

_____ The garage vehicle door is installed with a garage door opener.

REPORT:

_____ I observed indications of improper spacing between intermediate balusters, spindles and rails for steps, stairways, guards and railings. Correction is needed.

_____ I observed indications of photo-electric safety sensors that did not operate properly. Correction is needed.

_____ I observed indications of a window that was obviously fogged or displayed other indications of broken seals. Correction is needed.

_____ I observed indications of a material defect.

_____ I observed indications of a major defect.

_____ I observed indications of a minor defect.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ I observed indications of a cosmetic defect.

OPTIONAL SYSTEMS & COMPONENTS

DISHWASHER

_____ I inspected the dishwasher by using normal operating controls to demonstrate one primary function.

_____ The dishwasher was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

FOOD WASTE DISPOSER

_____ I inspected the food waste disposer by using normal operating controls to demonstrate one primary function.

_____ The food waste disposer was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

RANGES, COOK TOPS AND OVENS

_____ I inspected the range, cook top and oven by using normal operating controls to demonstrate one primary function.

_____ The range, cook top and oven were not inspected, because they were:

- _____ inaccessible
- _____ unsafe
- _____ not present
- _____ not within the scope of the inspection

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

MICROWAVE OVEN

_____ I inspected the microwave oven by using normal operating controls to demonstrate one primary function.

_____ The microwave oven was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

TRASH COMPACTOR

_____ I inspected the trash compactor by using normal operating controls to demonstrate one primary function.

_____ The trash compactor was not inspected, because it was:

- _____ inaccessible
 - _____ unsafe
 - _____ not present
 - _____ not within the scope of the inspection
-
-

DOOR BELL

_____ I inspected the door bell by using normal operating controls to demonstrate one primary function.

InterNACHI Home Inspection Report Checklist Xpert Home Inspections (256) 813-4237

_____ The door bell was not inspected, because it was:

_____ inaccessible

_____ unsafe

_____ not present

_____ not within the scope of the inspection
